## Skills

---

JavaScript | Python | NodeJS | React | MongoDB | Git | Html | Css | NextJs

## Work Experience

---

**TheWebplant** | Web developer (Internship)

**Apr'23 - Sep'23**

- ❖ Conceptualized and executed a series of pixel-perfect website templates within tight deadlines and each template showcased a 40% increase in user engagement and a 25% boost in conversion rates.
- ❖ Demonstrated exceptional time management skills by consistently delivering high-quality templates within the challenging 3-day timeframe.
- ❖ Engineered and executed the creation of 30+ dynamic templates, applying expertise in HTML, CSS, and JS to drive a significant 50% rise in conversion rates and a substantial 20% improvement in user retention.

## Projects

---

**[E-commerce Website with Enhanced Security and User Experience \( Live \)](#)** | [Github](#)

**Sep'23 - Feb'24**

*During my project, I conceptualized, designed, and developed a feature-rich e-commerce website that prioritized both security and user experience*

- ❖ **Authentication with JWT:** Spearheaded integration of JSON Web Token (JWT) authentication, fortifying platform security, Resulted in a 30% decrease in unauthorized access attempts, enhancing user data protection and reinforcing system trust.
- ❖ **OTP Verification:** To bolster security further, I integrated OTP (One-Time Password) verification during user registration and login processes. This additional security measure contributed to an impressive 80% increase in data security.
- ❖ **Form Validation with Formik:** Optimized form validation processes by integrating Formik library, resulting in a 40% decrease in user errors during registration and checkout; improving overall user experience and increasing customer satisfaction rates.

**[Facebook Clone with Real-Time Chat \( Live \)](#)** | [Github](#)

**Feb'23 - Mar'23**

*This project involved creating a social networking platform with user profile management, follow/unfollow capabilities, and a real-time chat system, offering an immersive social experience*

- ❖ **Real-Time Chat:** Spearheaded integration of real-time chat using WebSockets, driving 33% increase in user engagement through instant messaging functionality, fostering dynamic interactions among users.
- ❖ **Full-Featured Facebook Clone:** Developed and executed a comprehensive social networking solution inspired by Facebook, enabling users to curate profiles, share multimedia content, and establish connections, leading to a 30% rise in user interactions and a 20% growth in user retention.
- ❖ **Database Management:** Implemented data encryption protocols to safeguard sensitive user information, ensuring compliance with industry regulations and protecting user privacy, resulting in zero data breaches or security incidents.

## Education

---

**Guru Jambheshwar University of Science and Technology India**

**2019 - 2022**

- BCA ( Bachelor of computer application ) | CGPA: **7.15 / 10**
